

FOAMED POLYIMIDE SHAPED ARTICLE AND
PROCESS FOR PRODUCTION OF SAME

ABSTRACT OF THE DISCLOSURE

A foamed polyimide shaped article having heat resistance and molded to any shape obtained by molding and then calcining a mixture of pulverized pieces of a pre-foamed polyimide resin mass and a heat resistant binder and a process for production of the same comprising pulverizing a pre-foamed polyimide resin mass, mixing the pulverized pieces with a heat resistant binder, molding the mixture to a predetermined shape, then calcining it at a temperature of at least 350°C to cure the binder and strongly bond the polyimide foam mass.
